**Subject: Permission for World Environment Day**

Dear Sir,

I am writing to seek your permission for a group of our students to undertake a World Environment Day. In observance of World Environment Day, TKM School of Architecture aims to contribute positively to our environment by engaging in a tree planting initiative.

**Details:**

- **Title :** World Environment Day
- **Instructor:** Ar Asha
- **Target Audience:** All Students
- **Duration:** 1 Day

This event aligns with our mission to promote environmental sustainability and raise awareness about the importance of trees in maintaining ecological balance.

Our students and staff will be actively involved in this program, and we plan to work closely with local authorities to ensure that all necessary permissions and guidelines are followed. We will also make sure that the selected site is prepared for planting and that all participants are equipped with appropriate tools and protective gear.

We kindly request your approval to proceed with this project. Additionally, we will ensure all necessary permissions and guidelines from local authorities are adhered to. Thank you for considering this request. We look forward to your positive response.

Sincerely,  
Ar. Ashwathi

World Environment Day at Campus	Er Rintu Thomas
<b>Commencement of program is on 5th June 2024</b> <b>Time- 10.00am to 5.00pm</b>	

The day's activities included a series of educational workshops and presentations on key environmental topics, such as renewable energy, water conservation, and wildlife protection. Experts from local environmental organizations led these sessions, providing attendees with practical tips and strategies for reducing their environmental footprint. In addition to the educational components, the event featured a variety of interactive activities designed to promote sustainable living. Participants engaged in DIY projects, such as creating reusable shopping bags from old t-shirts and making natural cleaning products. These activities not only provided hands-on learning experiences but also encouraged attendees to adopt more sustainable practices in their daily lives. A highlight of the event was the sustainability fair, where local vendors and organizations showcased eco-friendly products and services. Attendees had the chance to explore these offerings and learn more about how they can make more environmentally conscious choices. The event concluded with a collaborative art project, where participants used recycled materials to create a large mural that highlighted key environmental messages. This creative endeavor served as a powerful reminder of the collective effort needed to protect our environment.

**Subject: Permission for Cleaning drive**

Dear Sir,

I am writing to seek your permission for a group of our students to undertake a Cleaning drive. This project is designed to encourage social activities and foster community engagement

**Details:**

- **Title : Cleaning drive**
- **Instructor: Ar Asha**
- **Target Audience: 3rd year Students**
- **Duration: 3 Days**

Our students and staff are committed to making a positive impact on the community and the environment. The cleaning drive aims to:

1. **Enhance the Cleanliness:** Removing litter and debris to improve the aesthetic and sanitary conditions of the area.
2. **Promote Environmental Awareness:** Educating participants and local residents about proper waste disposal and environmental stewardship.
3. **Foster Community Spirit:** Engaging with the community to work together for a common goal.

We kindly request your approval to proceed with this project. Additionally, we will ensure all necessary permissions and guidelines from local authorities are adhered to.

Thank you for considering this request. We look forward to your positive response.

Sincerely,

Ar. Asha

Title of program	Coordinator
Water Conservation and Health at Karuvelil Village	Er Rintu Thomas
<b>Commencement of program is on 26th May 2023</b> <b>Time- 10.00am to 5.00pm</b>	

The Department of Architecture organized a class on water conservation and awareness at Karuvelil village, aimed at educating the local community about the importance of preserving water resources and implementing sustainable practices. The session was designed to raise awareness about water conservation and provide practical tips for managing water use effectively.

During the class, students presented information on various aspects of water conservation, including the impact of water wastage, methods to reduce consumption, and the benefits of adopting water-saving technologies. The presentation included visual aids and interactive discussions to engage the participants and facilitate a better understanding of the concepts.

The students also demonstrated practical water-saving techniques, such as rainwater harvesting, efficient irrigation methods, and the use of water-saving fixtures. They encouraged community members to implement these practices in their daily lives to help conserve water and improve local water management.

The class was well-received by the villagers, who actively participated in discussions and asked questions about how to apply the conservation methods in their homes. The session concluded with a Q&A segment and distribution of informational materials to reinforce the key messages.

The visit to Karuvelil village was a successful initiative that highlighted the importance of water conservation and community engagement. The students gained valuable experience in public education and expressed a commitment to continuing similar outreach activities. The event not only increased awareness about water conservation but also fostered a sense of collective responsibility toward sustainable water management in the community.

World Environment Day at Campus	Er Rintu Thomas
<b>Commencement of program is on 5th June 2023</b> <b>Time- 10.00am to 5.00pm</b>	

The day began with a series of engaging talks and panel discussions led by environmental experts and local activists. These sessions covered a range of topics, including climate change, sustainable living, and biodiversity conservation. The speakers provided valuable insights and practical advice on how individuals can make a positive impact on the environment. Following the educational sessions, the event featured several hands-on activities aimed at encouraging sustainable behavior. Participants took part in workshops on upcycling and zero-waste living, where they learned how to repurpose everyday items and reduce waste. The event also included a community clean-up drive, where attendees worked together to collect litter and beautify the campus grounds. The campus was decorated with informative displays and interactive exhibits showcasing various environmental issues and solutions. Attendees had the opportunity to engage with these displays and gain a deeper understanding of the challenges we face and the actions we can take to address them. The day concluded with a tree-planting ceremony, where participants planted native trees around the campus, contributing to local reforestation efforts and enhancing green spaces. Many attendees expressed a renewed commitment to environmental stewardship and a desire to incorporate sustainable practices into their daily lives.

World Environment Day at Campus	Er Rintu Thomas
<b>Commencement of program is on 5th June 2022</b> <b>Time- 10.00am to 5.00pm</b>	

The event kicked off with a series of informative presentations on various environmental issues, including climate change, waste management, and biodiversity conservation. These presentations were delivered by experts in the field, including faculty members and guest speakers from local environmental organizations. Their insights provided a comprehensive understanding of the challenges we face and the actions we can take to address them. One of the key features of the event was the interactive workshops and demonstrations. Participants had the opportunity to engage in activities such as creating eco-friendly crafts, learning about sustainable gardening practices, and understanding the principles of waste reduction through composting and recycling. These hands-on workshops not only educated attendees about practical environmental solutions but also encouraged them to adopt these practices in their daily lives. The event also featured a tree-planting drive on campus, where students and staff collaborated to plant native trees and shrubs. This initiative aimed to enhance green spaces on campus and contribute to local reforestation efforts. The tree-planting activity was well-received, with participants expressing a sense of accomplishment and a deeper connection to their role in environmental stewardship. Additionally, the campus was adorned with informative posters and displays highlighting key environmental issues and sustainable practices. The visual displays, created by students, provided valuable information and served as conversation starters throughout the day. The event concluded with a commitment ceremony where attendees pledged to adopt more sustainable habits and support environmental causes.

# WASTE MANAGEMENT INITIATIVES

@KARUVELIL VILLAGE  
ON 19TH JUNE 2022

For more Information | [tkmsa.ac.in](http://tkmsa.ac.in)

Title of program	Coordinator
Waste management Initiatives	Er Rintu Thomas
<b>Commencement of program is on 19th June 2022</b> <b>Time- 10.00am to 5.00pm</b>	

Water management in Karuvellil Village aimed to address critical issues related to water conservation and promote sustainable practices within the local community. The students conducted educational workshops to raise awareness about the importance of water conservation, discussing methods such as rainwater harvesting, efficient water usage, and reducing water waste. These sessions were designed to equip villagers with practical knowledge to better manage their water resources. Additionally, students actively participated in hands-on activities, including the installation of simple rainwater collection systems and the maintenance of existing water facilities. They also engaged in a community cleanup to prevent water pollution, ensuring that local water sources remain uncontaminated. The initiative saw enthusiastic involvement from many students, who not only learned about water management but also contributed directly to improving the village's water infrastructure. The project fostered a strong sense of environmental responsibility among the students and helped to build stronger ties between the school and the local community. Feedback from the villagers was overwhelmingly positive, highlighting the practical benefits and increased awareness resulting from the students' efforts. Overall, the water management initiative successfully promoted sustainable practices and underscored the importance of collective action in addressing environmental challenges.

World Environment Day at Campus	Er Rintu Thomas
<b>Commencement of program is on 5th June 2020</b> <b>Time- 10.00am to 5.00pm</b>	

The day began with a series of enlightening talks and workshops led by environmental professionals and local advocates. Topics covered included sustainable agriculture, the impact of plastic pollution, and strategies for reducing carbon footprints. These sessions provided attendees with a comprehensive understanding of current environmental challenges and practical solutions. Participants were then invited to take part in a range of interactive activities designed to promote environmental consciousness. The event featured a recycling competition, where teams created innovative art pieces from recyclable materials, and a series of sustainability-themed games that highlighted the importance of resource conservation. A significant component of the day was the "Green Pledge" campaign, where attendees committed to adopting more sustainable practices in their daily lives. Participants wrote their pledges on biodegradable cards, which were displayed around the campus as a visual commitment to environmental stewardship. The event concluded with a community garden project, where students and staff came together to plant and maintain a vegetable and herb garden on campus. This initiative aimed to promote sustainable agriculture and provide fresh produce for the campus community.
